Note:

Because this full moon is so close to the Solstice, my main musings can be found with the Solstice flyer. However I just wanted to share the esoteric mantrums for the sign of Sagittarius. In the Alice Bailey books two mantrums are given for each sign, one which describes the lower aspect of the sign and the other the higher aspect.

The first, the lower Sagittarian mantrum is **“Let food be sought”**. This relates to the centaurs who depict the sign of Sagittarius - the centaurs being the half human half horse creatures of mythology. They were for the most part very basic ... to put it as politely as I can - eating drinking and sexing . I always laugh with this mantra because Sagittarius is my sign and because it comes near the Solstice/Christmas period when food is certainly sought!!

The higher mantrum for Sagittarius is **“I see the goal, I reach that goal and then I see another”**. Here the focus is not so much on the centaur but on the bow and arrow of the it, this is the expansion and the urge of the that at our awareness. the lust for reaching out

on the centaur but on the bow and archer and the archer’s focus. As I see urge behind the Sagittarian sense of adventure and travel...Basically it is soul calling - with us responding to particular level of growth and With the higher aspects of this sign, satiation has become the longing and for spiritual contact.
