Challenged by these times ??? Practice strategies for transformation and change!!

A major connection between the sign of Sagittarius and the Summer Solstice is the sun. At the Summer Solstice the sun is at its zenith, and as we travel through Sagittarius, we pass in close alignment to the centre of our Galaxy and the central Spiritual sun of our galaxy, since in physical terms, the constellation of Sagittarius is located near the centre of our galaxy. Other signs such as Capricorn Ophiuchus and Scorpio are also located near the galactic Centre but are only partly “in” our galaxy. This is because although we often think of the constellations as “flat” i.e. as we see them in the sky, they in fact exist on multiple planes and most lie in part outside the galactic plane.

In 2012 we passed through a very special alignment between the Earth and our galactic centre. This occurred at the end of the Mayan calendar and is an alignment which only occurs every 26,000 years. It heralded vast changes which at first did not seem to appear but now in 2019/2020 with the event of COVID and many other dramatic events; we are seeing, I believe, the fulfilling of what was prophesized. There is sense that an epoch is ending and another beginning and being built and these ideas are being deeply discussed and put into the light of our group awareness and mind. Also being discussed and felt around the world are all the difficulties, sufferings, transformations and challenges that occur with such a momentous birth.

All **external** events are reflected and experienced **internally**. We need to work with both the inner and outer worlds and realize that they are a unity, or we will continue to reflect and create division and polarity within and without. It is so very important that we support each other in these special times and share loving **strategies** that build and create the needed transformations and expansions. Inside we are a starry world of light and practicing loving spiritually oriented strategies aids us in entering into it.

For a starry focus and strategy for this time, I have given some Egyptian hieroglyphs below, which form an ancient mantrum. Working with it, is one way to aid us to open up and expand and transform ourselves into our soul and spirit. To explain - Horus is the son of Isis in a similar way that Christ is the son of Mary. In ancient Egypt, Isis was worshipped as the great Goddess and as the inner sun of the galaxy and hence Horus was thought of as the son of the "sun" (Isis) and therefore refers to our soul and spirit. This is similar to thinking of transforming ourselves into Christ consciousness but using a different terminology. Let us all inspire each other and work with the world community of souls to expand and transform each other into beings of light and love and unity.

Love Janet

A-un akh-akh ar-et pafi (e)mtun ami ari Kheperu ar Hru.
Open the star chamber that we may guide our transformation into Horus.
