Some thoughts

At this the Gemini festival, we focus on gathering up all the special energies created at the festivals of Easter/Resurrection and Wesak and we work with each other and spiritual workers from around the world to focus the energy of goodwill for humanity and the whole planet.

Alice Bailey wrote many books known as the “blue books” - most of them being dictated to her mentally by the Tibetan master Djwal Khul or DK for short. Alice came from a Christian missionary background and she with her 2nd husband Foster Bailey became active participants in the Theosophical Society. Alice and Foster sought to develop more egalitarian structures in the society, which seemed to largely serve the wealthy and affluent with much ego posturing and pomposity, all of which they wanted changed. Eventually these power struggles led Foster and Alice to leave but their ideas remained in a strongly theosophical tradition though a number of important extensions to the teachings were developed e.g. the teachings of the seven rays.

World Goodwill is intended to promote better human relations through goodwill and could be defined as “Love in action” It was a theme of practical action fervently fostered by Alice who pursued it using her background of well-honed missionary skills. Love in action or goodwill could also be seen as active compassion and people of Goodwill are those who think and act with a measure of loving understanding and concern for the wellbeing of all. The energy of goodwill is potentially a powerful force for change. People of goodwill from all cultures faiths and professions can create through goodwill through their loving thoughts and foster the new world and the incoming Aquarian Age. The more we work with the world group and build the rainbow bridge linking us into spiritual

consciousness, the more loving action will emerge. As we work in this way we link into the plan that is behind the seeming confusion and negativities of the world today. This plan is the Divine map for all of us which we can access if we apply ourselves and act with love and goodwill. The understanding of the plan may come as a quiet knowingness inside or as a group insight, as a direct message from the master teachers of Shamballa or from the One Life itself.

So at this Gemini festival, we will focus on and practice developing our understandings and skills of Goodwill in order to send it out as a loving action to all life on this planet.

One of the objectives of World Goodwill is “To help mobilize the energy of goodwill through education and through subtle action with programs that draw on the power of thought. At the heart of every human being there is a reservoir of goodwill accompanied by deeper warrior - like qualities; the will to good and the will to love.”

If you want to join in with a world group following a Bailey tradition - women and men of goodwill link up in meditative thought and love every day at 5 o'clock as the “New group of world servers”. They use the mantram below which is said with dedication and silent focused attention. If it feels right you can just join in, or research it more, or perhaps find another world group that seems a good fit for you.

“May the power of the one Life pour through the group of all true servers.

May the Love of the one soul characterize the lives of all who seek to aid the *Great Ones.

May I fulfill my part in the one work through self forgetfulness, harmlessness and right speech”.

Love in the light of goodwill

- The Great Ones here are the masters and teachers who work on the inner planes in Shamballa and the spiritual planes in what is often called the “ inner ashram”
